

1 Declarative Title *

2 **Mathew E. Hauer** ^{1,2*} *Florida State University*

3 This is a short abstract.

4 *Corresponding author. mehauer@fsu.edu. p: 850-644-7103

5 ¹ Department of Sociology, Florida State University. 113 Collegiate Loop. Tallahassee,
6 FL USA 32306.

7 ² Center for Demography and Population Health, Florida State University.

*The data and code that supports this analysis are available in the supplementary materials.

8 Introduction

9 This is an R Markdown document. Markdown is a simple formatting syntax for authoring
10 HTML, PDF, and MS Word documents. For more details on using R Markdown see [http:](http://rmarkdown.rstudio.com)
11 [//rmarkdown.rstudio.com](http://rmarkdown.rstudio.com).

12 When you click the **Knit** button a document will be generated that includes both content
13 as well as the output of any embedded R code chunks within the document. You can embed
14 an R code chunk like this:

```
summary(cars)
```

```
15 ##           speed           dist
16 ##  Min.      : 4.0   Min.      :  2.00
17 ## 1st Qu.:12.0   1st Qu.: 26.00
18 ##  Median :15.0   Median : 36.00
19 ##   Mean  :15.4   Mean    : 42.98
20 ## 3rd Qu.:19.0   3rd Qu.: 56.00
21 ##   Max.   :25.0   Max.     :120.00
```

22 *Including Plots*

23 You can also embed plots, for example:

24

25 Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing
26 of the R code that generated the plot.
